Character board

Character standee

Character miniatures

4 Ability markers

Experience markers

5 Starting Action cards

Side Quest

5 Character tokens

1 Automa board for Solo Mode

23 Tale cards

16 Mystery cards

1 Nivellen standee

Nivellen miniature

1 Authority token

1 Nivellen's Vote token

1 Determination token

NEW CHARACTER

TRISS

SETUP

When choosing Characters, add Triss to the pool and follow the usual setup. Add the new Automa board to the available pool for Solo mode.

A dear friend of Geralt, Yennefer, and Ciri. Triss is a powerful sorceress who wields elemental magic and an alchemy expert who is also allergic to potions. Her teleportation abilities will come in handy.

Let yourself be enchanted by her unique abilities, which can mix things up before the playing cards Step.

GAMEPLAY

Triss' starting Action card ability:
Lose 2 Non-Active Symbols to gain 4 Experience Points.

TALE SPECIAL RULES

1-4 PLAYERS

A GRAIN OF TRUTH

Once upon a time, there was a half-man, half-beast called Nivellen, living in a wonderful house full of secrets and magic. And one day, some people were killed.

In this Tale, Players meet Nivellen - a mysterious lord of a manor. They will interact either with him, or his magical house, to learn more about his true motives, hoping to solve a series of ominous events. Does Nivellen have anything to do with it?

Nivellen, a mischievous host, appears on the Initiative track, and you need to consider him when planning your moves. New Mystery cards will bring you closer to learning Nivellen's secret. Dealing with an unknown type of magic always involves a choice: to do what is right or what is beneficial.

STARTING INITIATIVE ORDER

- Dijkstra
- Dandelion
- Yennefer
- Triss
- Yarpen
- Regis
- Ciri
- Vesemir
- Geralt
- Letho

TALE SPECIAL RULES

SETUP

Place Nivellen standee below all Characters on the Initiative track.

Place Nivellen's Vote token, Determination token, and Authority token nearby.

Do not place the Extra Experience token on the board when setting up the game. Instead, Players will be able to gain an extra Experience Point by being below the spot chosen by Nivellen when drafting cards.

Place the shuffled face-down Mystery cards deck next to the playmat, near the Victory Points track.

Look through the Mystery cards and remove those that correspond to the Characters players chose. Shuffle the deck and place it next to the playmat.

Example: *Players chose to play as Geralt, Dandelion, and Ciri, so the following Mytery Cards are removed:*

DRAFTING CARDS

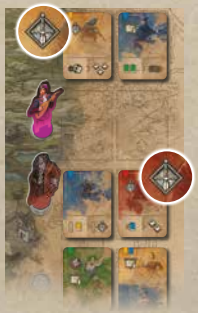

Before revealing new Action cards for the first Turn (then at the end of each Chapter), draw 2 Mystery cards and place them face-up next to the Tale cards, one on each side.

Each Mystery card corresponds to one of the Active Symbols.

These cards give players additional challenge and scoring opportunities. At the end of the Chapter, one of the Mystery cards (corresponding to the Dominating Symbol) will grant additional Symbols.

When it's Nivellen's initiative, place him in **the lowest available spot with any Active Symbols on the pair of cards.** If there's no such pair available, place him in the bottom-most available spot.

Example: ⚔ *and* 🃏 *are the Active Symbols. There are 2 Pairs of cards with Active Symbols. Nivellen is placed next to the lower one.*

Nivellen drafts the pair of cards in his spot but discards them instead of playing. Check for any Active Symbols on the discarded Action cards (ignore their effects). Place Nivellen's Vote token on the Tale card corresponding to the Active Symbol there was more of.

In case of a tie (especially if there were no Active Symbols on the discarded cards), flip the Nivellen's Vote token and place it on the Tale card corresponding to the result.

Example: *Nivellen drafted and discarded cards with one* ✢. *He puts his token on the Tale card with* ✢.

After all Players and Nivellen drafted their cards, the Characters in spots below Nivellen gain 1 Experience Point.

When moving Characters back to the Initiative track, treat Nivellen as any other Character – he keeps his relative position.

PLACING THE DESTINY TOKEN

Nivellen's Vote token counts as one Player's vote towards placing the Destiny token on the appropriate Path. Resolve any ties following the regular rules.

After Placing the Destiny Token, remove Nivellen's Vote token from Tale Card and place it near the playmat.

THE END OF THE CHAPTER

After determining the Dominating Symbol, but before scoring Victory and Experience points, resolve the Mystery card **corresponding to the Dominating Symbol.** The other Mystery card's effect is ignored.

TALE SPECIAL RULES

- Check the Mystery card's condition regarding cards in Timeline, ignoring Lost Symbol tokens on cards (read them as printed).
- The Player with the highest number of cards meeting the condition gains 2 Dominating Symbols. **In case of a tie, all tied Players gain Symbols.**
- Discard face-up Mystery cards.
- Draw the next 2 Mystery cards and place them next to the Tale cards, one on each side.
- Proceed to score Victory and Experience Points.

Example: ⚔ *was the Dominating Symbol for the Chapter. All Players now check the condition of the Mystery card next to the* ⚔ *Tale card. The condition says: Have the most cards without Symbols.*

Player A *has 1 such card in their Timeline.*

Player B *has 2 such cards in their Timeline. Cards with Lost Symbols do not count towards this condition.*

No other Player has cards without Symbols in their Timelines. **Player B** *gains* 2 ⚔.

After the 1st Chapter, the Player that has the most Dominating Symbols, as a reward from the Tale cards, gains 1 of the 2 special tokens, that may be used at the end of future Turns:

- Determination token - when gaining Dominating Symbols for the Mystery card, discard this token to gain an additional 1/1/2/2 Symbols if playing a 1/2/3/4-Player game.

- Authority token - when counting votes at the Placing the Destiny token step, discard this token to add 1/1/2/2 Player's votes to your side if playing a 1/2/3/4-Player game.
