OPERATION
"GAME"

MISSION DETAILS

Mission start date: Immediately

Congratulations. You have successfully cracked the code. You have demonstrated the kind of mental agility that MIND MGMT is looking for.

MIND MGMT is a top secret organization that has existed for decades. We recruit top mentally skilled individuals like yourself to help us maintain world order. If you can pass our final test, we will ask you to visit our training facilities in Shangri-La to measure your full capabilities. From there you will be sent on missions around the world, as we deem necessary.

Background
Recently non-psychically attuned individuals have started to dig and reveal information about MIND MGMT and are trying to take us down before we can better humanity. We need to divert their attention away from our organization and to do this, we've created a board game based on MIND MGMT. We know this is a bold move, but we believe that the existence of this **"game"** will ensure all discussion about MIND MGMT is thought to be about the game and not our actual organization.

Your Mission
We need your skills to ensure regular people continue to think that MIND MGMT is only a board game. You're clever enough to figure out how to do this, but your best option is to buy the game and talk about it as if it were an actual board game, on social media platforms. This will go a long way to making people believe that this is an actual board game.

This is your **final test** and your acceptance into MIND MGMT will depend on your success. You have one week to complete your mission.

-The MGMT

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
DISTRACTION BOX

MISSION DETAILS

Location: MIND MGMT SHIFT Module 1
Includes: 1 Cards, 1 Step token (with DB on back), 1 new Setup card

Distraction Box

- Ensure the agents don't know if you're placing the Distraction Box token or a normal Step token!
- If you choose to place the Distraction Box on a space that you HAVE been on, when the Distraction Box is flipped face up due to the agents taking a REVEAL action, a Confirmed Mental Note token is NOT placed in this location. This means that the agents would have to ask about one of the features in this location again in order to get a real Step token placed here.

New Setup

- The only difference with this new setup card is that you can now use a Mind Slip token during the first 5 moves as part of the setup if you want. You still must place the Mind Slip token on the Time track next to the 0-5 space.

Place the Distraction Box card and token back in sealed package once the game is over.
The new Setup card is added to the main game.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
THE MAGICIAN

MISSION DETAILS

Location: MIND MGMT SHIFT Module 1
Includes: 2 cards (Recruiter, Potential Recruiter)

How this ability works:

- As the Recruiter, look at the 2 features in the location where you are now.
- Look along the row, the column and both diagonals on the board to see if either of these 2 features appear.
- If they do, then you can use a Mind Slip to move to that location.
- The word "closest" isn't needed on this card. You can move to any location in a straight line that matches one of the features that are on the location you're on right now.

Both cards are added to the main game and not placed back into the sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
NEW CAPTURE

MISSION DETAILS

Location: MIND MGMT SHIFT Module 1
Includes: 1 Card

New Capture

- In order to attempt a Capture from now on, the Rogue Agents also have to be able to identify one of the Recruiters secret Feature cards. To capture the Recruiter you declare that you are taking the Capture action and also must say one feature out loud. If the Recruiter is in the location of your agent AND one of the 3 Feature cards the Recruiter drew at the start of the game has the feature that was mentioned out loud, then you have captured the Recruiter and the Rogue Agents have won the game! If both of these are incorrect, the Recruiter does not indicate that both were incorrect and instead says, "MISS." If only one of these things was correct, the Recruiter does not indicate which was correct and which wasn't, but instead simply says "MISS".
- It could be that a Feature card has been exposed already due to a successful Shakedown action on a previous turn. You are allowed to simply say the name of that feature when you attempt a Capture action.

The new Capture card is added to main game and not placed back in the sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
DREAMWALKER

MISSION DETAILS

Location: MIND MGMT SHIFT Module 2
Includes: 2 Cards (Search for Dreamwalker, Wake Up Dreamwalker), 4 Search tokens

Dreamwalker

- The "D" on your Secret Map is where you are holding the Dreamwalker captive.
- Until the Dreamwalker is found, the agents cannot use the REVEAL action
- After an ASK action is taken by a Rogue Agent, place a SEARCH token in one of the 4 corners of the location your agent is in.
- The Recruiter then rotates that token such that it will create a box (if you drew lines from the token and in the directions of the arrows) that would contain where the Dreamwalker ("D" on the Secret Map) is located.

Place both cards and 4 tokens back in the sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
MAYHEM

MISSION DETAILS

Location: MIND MGMT SHIFT Module 3
Includes: 1 card, 1 blue Mayhem token, 1 Mind Slip token

Mind Slip

- There will now be 2 Mind Slip tokens placed during setup. Each one will be placed adjacent (orthogonally or diagonally) to a different temple.
- Each one can be collected at a different time, but you still need to have visited the location with a Mind Slip before you can collect it

Mayhem

- Once the blue Mayhem token is placed, the Recruiter should draw this onto their Secret Map
- The blue Mayhem token can be placed adjacent to a other Mayhem tokens, but don't use them to divide the board into two segments

Place 1 card and 2 tokens back in sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
MINDWIPE

MISSION DETAILS

Location: MIND MGMT SHIFT Module 4
Includes: 3 cards (Mind Wipe, Mind Wipe Activated, Insurance Agent), Step token with MW on back, Insurance Agent token

- **Important:** The Mind Wipe and the Distraction Box cannot be in play at the same time. Once one of them is discarded, then you can place the other one.
- Unlike the Distraction Box, the Mind Wipe token MUST be placed in a location that you have visited before
- If the Mind Wipe token is flipped face up or discarded due to any other effect than from the REVEAL action, then the Mind Wipe has no effect. This means that if an agent uses the REVEAL action to reveal the Mind Wipe token, then the Mind Wipe WILL happen. There might be something in the future that could allow you to flip over a token without taking the REVEAL action (#spoilers!)
- To get an agent back, any rogue agent needs to perform the SHAKEDOWN action and they must succeed in identifying one of the Recruiter's 3 feature cards. This is why this card has no effect if all 3 features have already been identified, since there would be no way to get your agent back.
- The Insurance Agent can simply MOVE and ASK every turn.

Place all 3 cards and 2 tokens back in the sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
RIGHTHANDMAN

MISSION DETAILS

Location: MIND MGMT SHIFT Module 5
Includes: 2 cards (Move Right-Hand Man, Catch Right-Hand Man), 1 Right-Hand Man token

- The Right Hand Man can only contact recruits on the location that he finishes his movement that turn. So if he moves 2 spaces, he will only contact recruits on the 2nd space he moved to, not the first.
- Once a recruit is collected by the Right Hand Man, the Recruiter cannot also collect a recruit at that same location.
- When the Time token next reaches an Alert token, indicate the total quantity of recruits you contacted as the Recruiter and with the Right Hand Man. Do not indicate how many each of them contacted.
- The Right Hand Man can contact a recruit at a location and also be used as one of 2 Immortals to contact a recruit as part of IMMORTAL RECRUITING
- The Right Hand Man can walk through Mayhem and revisit the same location multiple times
- Once the Right Hand Man is caught using the SHAKEDOWN action, he is removed from the game. The Recruiter now continues with the rest of the game with only 3 recruits.

Place both cards and the token back in the sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
HOMEMAKER

MISSION DETAILS

Location: MIND MGMT SHIFT Module 6
Includes: 1 card, 1 Homemaker token, 1 Chaos token

- Homemaker cannot share a space with the Right Hand Man
- Agents can never move into any of the 4 locations that are covered by the Chaos token.

Blue Mayhem token
- This is placed as a free action by the Recruiter on their turn.
- Once the blue Mayhem token is placed, the Recruiter should draw this onto their Secret Map
- The blue Mayhem token can be placed adjacent to a other Mayhem tokens, but don't use them to divide the board into two segments

Place the Homemaker card and 2 tokens back in sealed package once the game is over.
The blue Mayhem token is added to the MIND MGMT Module 3 (where the other blue Mayhem token is).

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
THE ERASER

MISSION DETAILS

Location: MIND MGMT SHIFT Module 7
Includes: 2 cards (Recruiter, Potential Recruiter)

- The Eraser can move fast, but she requires some pre-planning as you can't use this ability if it would cause you to move to a location you've already been to.
- She moves in a straight line - vertically or horizontally - all the way to the edge of the board, or Mayhem that stops her - whichever comes first

Both cards are added to the main game and not placed back into the sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
ESCORT DUTY

MISSION DETAILS

Location: MIND MGMT SHIFT Module 7
Includes: 8 cards (3 Decoy, 1 Animal Girl, 1 Immortals Attempt Elimination, 1 Recruiter Attempts Elimination, 1 Make Inquiries, 1 Witness Protection)

- It is highly recommended that you don't play with any other SHIFT Modules when you first play with Escort Duty, as it's a brian bender!
- One agent will randomly have the Animal Girl card. All Rogue Agents should know which agent has Animal Girl. Of course, the Recruiter should NOT know! Keep it secret!
- When you are in the same location - or orthogonally adjacent locations (which includes diagonally if one agent is in a temple), you MAY swap your Escort Duty cards. It is recommended that you collect both cards and make it impossible for the Recruiter to know if you swapped or not. You cannot do this if there is Mayhem between the 2 agents. Mayhem cannot prevent agents from swapping cards if one of them is on a temple.
- Instead of moving an Immortal, the Recruiter can get some intel on Animal Girl's whereabouts. The agents must look at the 2 features that are on the location where the agent that has the Animal Girl card is located. If either of these 2 features are also on ANY location with ANY of the Immortals, then the agents answer YES. If none of the 2 features can be found on ANY of the location with Immortals, then the agents answer NO.
- If the Recruiter Steps onto a location that they believe has the Animal Girl card, then the Recruiter can attempt to eliminate Animal Girl. If that agent is holding the Animal Girl card, then the Recruiter wins the entire game! Otherwise, if that agent does not have Animal Girl, then the Recruiter places a Confirmed Mental Note token on their current location with the current time on it.
- If an Immortal moves onto a location with an agent, the Recruiter can have the Immortal attempt to eliminate Animal Girl. If that agent is holding the Animal Girl card, then the Recruiter wins the entire game! Otherwise, if that agent does not have Animal Girl, then the Recruiter places a Confirmed Mental Note token on their current location with the current time on it.

Place all 8 cards back in sealed package once the game is over.

SECURITY LEVEL
CLASSIFIED

OPERATION
PSYCHIC TRIPWIRE

MISSION DETAILS

Location: Rogue Agent SHIFT Module 1
Includes: 2 Cards (Set Psychic Tripwire, Trigger Psychic Tripwire), 7 Tripwire tokens, 4 Tripwire Alert tokens

Set Psychic Tripwire

- You can make the Psychic Tripwire a straight line all the way across (even use less than 7 tripwire tokens if you wish), or you can make turns along the way, as long as both ends touch the outside edge of the map.

Trigger Psychic Tripwire

- Whether it's through a normal Step action, or by using a Mind Slip, if you crossed the Psychic Tripwire, then you must place a TRIPWIRE ALERT token when the Time token reaches its next ALERT icon.
- If you crossed it twice since the last ALERT icon, then you'd place 2 TRIPWIRE ALERT tokens.
- The TRIPWIRE ALERT tokens are infinite. Use any other item to represent them if you run out.

Place both cards and 11 tokens back in sealed package once the game is over.

MIND MGMT

SECURITY LEVEL

CLASSIFIED

OPERATION

MIND WEB

MISSION DETAILS

Location: Rogue Agent SHIFT Module 2
Includes: 2 Cards (Mind Web, New Recruit), 1 Mind Web token, 1 Recruit token

If the Recruiter wasn't on any of the other locations, then no step tokens are placed

The Recruiter needs to contact 13 recruits instead of 12 to win the game (or make it to 16:00)

Place both cards, 1 Mind Web token, and the Recruit token back in the sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
DARK CHANNELS

MISSION DETAILS

Location: Rogue Agent SHIFT Module 3
Includes: 1 Card

This card can only be used if Meru is one of the characters in the game, and only by the player controlling Meru
Perform each ASK as its own action to ensure the information is kept separate and distinct

Place the card with the base game once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
DUNCAN

MISSION DETAILS

Location: Rogue Agent SHIFT Module 3
Includes: 1 Card, 1 Duncan token

When setting up a new game, the Rogue Agents can choose any 4 agents to play with each game.
Duncan can REVEAL tokens that are in locations that have an Immortal

Both the card and the token are added to main game and are not put back in sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
MIND MAP

MISSION DETAILS

Location: Rogue Agent SHIFT Module 3
Includes: 1 Card, 1 Mind Map Locator token, 1 Mind Map 09:00 token

When the Time token reaches 09:00, the Recruiter places the MIND MAP LOCATOR token on the intersection between 4 squares. ONE of those 4 squares must be the location where you have marked "1" on your Secret Board (this is the location where you started!)
You do not indicate which of those locations is your starting location though

Place 1 card and 2 tokens back in sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
PUNKS

MISSION DETAILS

Location: Rogue Agent SHIFT Module 3
Includes: 1 Card

The agent that moves can be standing up or lying down (meaning it doesn't matter if they have or have not taken their turn already)
You can use Punks even if there is an Immortal on the location with either of the agents

This card is added to the main game and is not placed back in sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
ORIGINAL IMMORTAL

MISSION DETAILS

Location: Rogue Agent SHIFT Module 4
Includes: 3 Cards (Move Original Immortal, Lucky Umbrella, Wind Ventriloquism), 2 Lucky Umbrella tokens, 1 Original Immortal token

During setup, the Recruiter will place the Original Immortal as well as each of the 2 Lucky Umbrella pieces on 3 different locations on the board. Each location will have the same feature that is on the Feature card that was fl ipped face up.
Agents that don't move, can then move the Original Immortal up to 2 spaces on the board.
Agents that only move 1 space can move the Original Immortal 1 space on the board.
Once the Original Immortal has collected both of the Lucky Umbrella tokens, remove the Original Immortal from play
Using the Lucky Umbrella means that you are attempting to CAPTURE the Recruiter on 5 spaces instead of just 1.
Wind Ventriloquism can be used INSTEAD of moving an Immortal. To use it, an immortal needs to be in the same row or column as the Original Immortal. Pull the Original Immortal 1 space closer to that Immortal - but not through Mayhem.

Place all 3 cards and 3 tokens back in sealed package once the game is over.

MIND MGMT

SECURITY LEVEL

CLASSIFIED

OPERATION

PERRIER

MISSION DETAILS

Location: Rogue Agent SHIFT Module 4
Includes: 1 card, 1 Perrier token

The more Feature cards you reveal, the fewer options there are for what the Recruiter has as their 3 secret Feature cards

The card and token are added to the main game and are not put back in sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
PSISCAN

MISSION DETAILS

Location: Rogue Agent SHIFT Module 5
Includes: 1 card, 4 Psiscan tokens

The Recruit can know which number token is placed on each Recruiter card
If a SHAKEDOWN is performed, then the Recruiter checks to see if the number of the Immortal (that was shaken down) matches any of the Psi-scan token numbers on the backs of the face-down Recruiter cards. If there is a match, reveal the face-down Recruiter card, which helps the agents narrow down which Recruiter you might be.

Place 1 Card and 4 tokens back in sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
MENTAL BLAST

MISSION DETAILS

Location: Rogue Agent SHIFT Module 6
Includes: 2 cards (Mental Blast 1 of 2 and 2 of 2), 4 Mental Blast tokens

How the Mental Blast token works:

- If an agent performs any action other than ASK, then they give any one of the Mental Blast tokens to the Recruiter. Each Mental Blast token is unique, so pay attention to which one you're giving.
- The Recruiter then looks at every location on the board that has a Step token or a Confirmed Mental Note token (green side) and sees if they left that location in the direction of the arrow on the Mental Blast token (remember to orient the Mental Blast token so it looks like the board - you can see the blue strip on the token that matches the time track on the board).
- If they did leave any location that has a Step token or a Confirmed Mental Note token in the direction of the Mental Blast token, then place the Mental Blast token in one of those legal locations.
- This tells the rogue agents that from the space with the Mental Blast token, you moved to the location that the arrow is pointing at.
- Since the Distraction Box is a lie, you can continue the lie by placing ANY of the Mental Blast tokens onto it

Place both cards and 4 tokens back in the sealed package once the game is over.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
DUSTY'S ARMY

MISSION DETAILS

Location: Rogue Agent SHIFT Module 7
Includes: 1 card

Dusty's army can take out an Immortal from the game. When a SHAKEDOWN is successful in having the Recruiter reveal one of their 3 secret Feature cards, then that Immortal is removed from the game!
This means that the Recruiter will now play with only 3 Immortals for the remainder of the game
It's possible if you're using the Right Hand Man, that the Recruiter could be down to only 2 Immortals

The card is added to the main game and is not put back in the sealed package.

MIND MGMT

SECURITY LEVEL
CLASSIFIED

OPERATION
PSYCHIC NET

MISSION DETAILS

Location: Rogue Agent SHIFT Module 7
Includes: 1 card, 1 Psychic Net token

The Psychic Net is shared amongst all agents and can be used by any of them
Adjacent locations are orthogonally adjacent. This means that the Psychic Net affects 5 locations total
If an Immortal is moved onto the location with the Psychic Net, the Psychic Net is removed and the Immortals and the Recruiter can contact recruits in those 5 locations again.

Place the card and token back in the sealed package once the game is over.
