Rogue Agents #1

Psychic Tripwires

Once when moving, Rogue Agents may place a path of 7 connected tripwires. When the time track reaches an alert icon, Recruiter indicates how many times the wire was crossed since the last alert icon.

Rogue Agents #2

Mind Web

Once after *Reveal*: place *Mind Web* token on a corner of current location. Recruiter puts *Step* tokens on each adjacent visited location.

One More Recruit

Recruiter requires 13 instead of 12 recruits to win the game.

Rogue Agents #3

Mind Map

When the time track reaches 9:00, the recruiter places the token on a corner adjacent to the starting location.

Rogue Agents #4

Original Immortal & Lucky Umbrella

Rogue Agents can use their *Move* on the *Original Immortal* instead to collect two *Lucky Umbrella* pieces, after which they may once include orthogonal locations when attempting a *Capture*.

Rogue Agents #5

Psi-scan

Rogue Agents have a chance of revealing an unselected Potential Recruiter card after taking a *Shakedown* action.

Rogue Agents #6

Mental Blast

On a *Reveal/Shakedown/Capture*, Rogue Agents may ask if the Recruiter ever moved out of a location marked with a *Step* token/*Confirmed Mental Note* towards a specific direction (up to 4 times, once for all directions).

Rogue Agents #7

Psychic Net

During a move, Rogue Agents place the *Psychic Net* token on a location, which blocks any recruiting there and in orthogonally adjacent locations. Immortals remove and give back the token to the Rogue Agents when moving onto the location.

Mind MGMT #1

Distraction Box
The Recruiter gets one special *Step* token, which may be placed face down on unvisited locations (matching the feature) when *Asked*, and does not grant a *Confirmed Mental Note* when revealed.

Mind MGMT #2

Dreamwalker
Recruiter secretly marks a *Dreamwalker* location. The *Reveal* action is not available until Rogue Agents find the *Dreamwalker*'s locations, by placing *Search* tokens on corners when taking *Ask* actions. Recruiter rotates the tokens to box in the *Dreamwalker*.

Mind MGMT #3

Mayhem
The Recruiter may place *Mayhem* from this Shift package as a free action.
Rogue Agents place one more *Mind Slip* during setup.

Mind MGMT #4

Mind Wipe
The Recruiter gets one special *Step* token, which disables *Reveal/Capture/Shakedown* actions of the agent that *Reveals* it, until Rogue Agents perform a successful shakedown.

Mind MGMT #5

Right-Hand Man
The Recruiter gets a *Right-Hand Man* figure on the board, which can be moved 2 spaces (when forgoing moving Immortals) and may *Recruit*. Using a *Shakedown* on the *Right-Hand Man* removes him from the game.

Mind MGMT #6

Homemaker
The Recruiter places *Homemaker* on one of the temples, who moves one space a turn, and when entering a location with a Rogue Agent places *Chaos* on a corner. The agent is pushed away and locations adjacent to *Chaos* cannot be visited by Rogue Agents ever again.

Mind MGMT #7

Escort Duty
Rogue Agents escort *Animal Girl*, without the Recruiter knowing who has her. The Recruiter can attempt to win the game immediately by using *Step* and *Move Immortal* actions on the location with *Animal Girl*.
