Carcassonne

Inns & Cathedrals

In this expansion for **Carcassonne**, you build cozy inns on your roads and majestic cathedrals in your cities. The large meeple has double the strength to help you score those valuable features.

*This expansion can only be played together with **Carcassonne**. You can also combine it with other Carcassonne expansions. You can find clarifications on the rules at cundco.de/en/exp.*

Components & Setup

Components

24 Land tiles (marked with)

6 Score tiles 50/100 (front/back)

6 Large meeple

8 Standard meeple and 1 Abbot in pink *(this new set of figures allows you to play with 6 players)*

2 x Cathedral

7 x Inn

1 x River with inn

6 Large meeple

8 Standard meeple & 1 Abbot

6 Score tiles

Additional Setup

Hand each player the large meeple in their color.

Lay aside the 6 score tiles with 50/100. These help to track your score. Place a score tile in front of you whenever you reach the number of points shown.

If you are playing with the mini-expansion **The River**, shuffle the new river tile into the usual river tiles.

Shuffle the rest of the new land tiles into the other land tiles.

Each new game element is explained in relation to the 3 actions:

1. Place a land tile
2. Place a meeple
3. Score points

If an action is not explained in detail, the base rules apply.

Inns & Cathedrals

1. Place a land tile

2. Place a meeple

3. Score points

Scoring a road with an inn

If one of your roads with one or more inns is completed, you score **2 points** for each tile instead of the usual 1 point.

You score 6 points for the road, as it is 3 tiles long and there is an inn on it.

Although there are 2 inns on this road, you receive the bonus only once, so 4 x 2 = 8 points total.

Scoring a city with a cathedral

If one of your cities containing one or more cathedrals is completed, you score **3 points** for each tile and each coat of arms instead of the usual 2 points.

For this city you score 7 x 3 = 21 points (6 city segments and 1 coat of arms).

Important: If a road with an inn or a city with a cathedral is **not** completed by the end of the game, you score **1 point** per tile and coat of arms as usual.

The Large Meeple

1. Place a land tile

2. Place a meeple

Instead of a standard meeple, you may place your large meeple as a traveler, knight, monk or farmer according to the usual rules.

3. Score points

When determining the majority in a feature, the large meeple counts as 2 standard meeple (it has a strength of 2).

You have a large meeple in the city and Blue only has a standard meeple. This means that you have the majority in this city. You score 8 points and Blue scores 0.

In the final scoring you have a large meeple as a farmer on the field. Blue has 2 standard meeple there, too. This means that neither of you has the majority on this field, so you both score the points.

Special Land Tiles

This corner separates the 2 field segments from each other.

The monastery is a closed end for both roads.

The intersection is a closed end for all 3 roads.
The inn counts for the roads heading to the left and right, but not for the road heading down.

This is **not** a closed end for any road. Instead, the road splits into 4 directions.
All open ends must be closed to complete this road.

The intersection is a closed end for all 4 roads.
The two short roads to the city are already completed.
You may place a meeple on them to score 1 point.

Quick Overview

Inn

2 points per tile for a completed road with an inn.
1 point per tile in the final scoring.

Cathedral

3 points per tile and coat of arms for a completed city with a cathedral. **1 point** per tile and coat of arms in the final scoring.

Large Meeple

Type: Meeple **Strength:** 2
Eligible features: Road, city, monastery, field
Placing rules: Instead of a meeple;
on features without a meeple
